A Talk on Intellectual Property Right

Program Description: In today's knowledge-driven economy, fostering innovation and creativity is paramount. To equip future business professionals with the knowledge and skills necessary to navigate this landscape, the Department of B.Voc Professional Accounting and Taxation at EMEA College of Arts and Science organized a session titled **"A Talk on Intellectual Property Right" on March 4th, 2024, at B.Voc Hall**. This interactive program aimed to provide **41 second-semester B.Voc Professional Accounting and Taxation students** with a comprehensive understanding of intellectual property (IP) rights. The session explored the various categories of IP rights, their significance in protecting creative endeavors, and their impact on innovation, economic development, and overall societal progress.

Intellectual property rights are the rights given to persons over the creations of their minds. They usually give the creator an exclusive right over the use of his/her creation for a certain period of time. IP rights include trade secrets,

utility models, patents, trademarks, geographical indications, industrial design, layout design of integrated circuits, copyright and related rights, and new varieties of plants. IPR is a strong tool, to protect the investment, time, money, and effort invested by the inventor/creator of the IP, as it gives the inventor/creator an exclusive right for a certain period of time for the use of its invention/creation. Thus, IPR affects the economic development of a country by promoting healthy competition and encouraging industrial growth and economic growth. The objective of intellectual property protection is to encourage the creativity of the human mind for the benefit of all and to ensure that the benefits arising from exploiting a creation benefit the creator. This will encourage creative activity and give investors a reasonable return on their investment in research and development.

PROGRAM OBJECTIVES

- To unveil the intricacies of intellectual property rights, delving into various categories such as patents, trademarks, copyrights, and trade secrets.
- To elucidate the critical role of IP rights in fostering a culture of innovation by providing creators with legal protection for their ideas, inventions, and creative expressions.
- To explore the economic benefits associated with a robust intellectual property framework. A strong IP system can stimulate healthy competition, drive industrial growth, attract foreign investment, and ultimately contribute to a thriving national economy

TARGET AUDIENCE

The program targeted 41 second-semester students enrolled in the B.Voc Professional

Accounting and Taxation program.

Understanding IP rights is crucial for future business professionals, as it equips them to navigate legal aspects of innovation and protect creative endeavors.

The program aimed to empower them to:

- Navigate legal aspects of innovation and entrepreneurship.
- Protect the intellectual property of their clients or future ventures.
- Foster ethical and responsible business practices that respect intellectual property rights.

PROGRAM CONTENT

Welcome Address: Dr. Afsheena.P, HOD of the Department of B.Voc Logistics Management, warmly welcomed the participants and introduced the program's theme, highlighting the growing importance of IP rights in the modern business world.

Felicitation: Mr. Muhammed Roshan.PA, Assistant Professor in the Department of B.Voc Islamic Finance, offered his remarks. He could have emphasized how

an understanding of IP rights transcends specific business disciplines and is relevant to various aspects of commercial transactions and financial management

Keynote Address: The keynote address on "Intellectual Property Right" was delivered by N.K. Zaheera Banu, Assistant Professor in the Department of Biochemistry. While her expertise may not directly align with IP law, her scientific background could have offered valuable insights into the protection of intellectual property related to scientific discoveries and inventions. The address likely covered key aspects of IP rights, their legal framework, and real-world examples of how IP rights have fostered innovation and economic growth.

INTERACTIVE SESSION

Beyond the traditional lecture format, the program incorporated interactive elements to enhance student engagement. This might have involved activities like:

- Group discussions analyzing case studies that showcase the impact of strong or weak IP protection on specific industries.
- Brainstorming sessions where students propose strategies for businesses to leverage IP rights to gain a competitive advantage.

- Role-playing exercises simulating negotiations between inventors and potential investors, highlighting the importance of IP protection in securing funding.

These interactive elements likely fostered critical thinking, active participation, and a deeper understanding of the practical applications of IP rights.

LEARNING OUTCOMES

Students who actively participated in the session were expected to:

- Develop a comprehensive understanding of the concept of intellectual property and its various categories.
- Gain a deeper appreciation for the role of IP rights in protecting creativity, encouraging innovation, and promoting economic development.
- Develop the skills to critically analyze the impact of IP rights on different business scenarios.

PROGRAM EVALUATION

To assess the program's effectiveness and gauge student learning outcomes, feedback forms or facilitated discussions might have been employed (details can be added based on the actual method used). Evaluating the program allows for continuous improvement in future initiatives, ensuring that the department provides the most impactful learning experiences for its students.

FUTURE PLANS

The Department of B.Voc Professional Accounting and Taxation can explore future initiatives related to intellectual property rights. This could involve guest lectures by legal professionals specializing in IP law, workshops on navigating

the patent or trademark application process, or incorporating IP-related case studies into the curriculum.

A Talk on “INTELLECTUAL PROPERTY RIGHT”

Title: A Talk on Intellectual Property Right

Date: 5th March 2024

Venue: B.Voc Hall

Organized by: Department of Logistics Management, EMEA College of Arts and Science, Kondotty

Report of the program

On the 5th of March 2024, the Department of Logistics Management at EMEA College of Arts and Science hosted an enlightening talk on "Intellectual Property Rights" (IPR). research. Intellectual property rights are the rights given to persons over the creations of their minds. They usually give the creator an exclusive right over the use of his/her creation for a certain period of time. IP rights include trade secrets, utility models, patents, trademarks, geographical indications, industrial design, layout design of integrated circuits, copyright and related rights, and new varieties of plants. IPR is a strong tool, to protect the investment, time, money, and effort invested by the inventor/creator of the IP, as it gives the inventor/creator an exclusive right for a certain period of time for the use of its invention/creation. Thus, IPR affects the economic development of a country by promoting healthy competition and encouraging industrial growth and economic growth. The objective of intellectual property protection is to encourage the creativity of the human mind for the benefit of all and to ensure that the benefits arising from exploiting a creation benefit the creator. This will encourage creative activity and give investors a reasonable return on their investment in research and development.

IP plays an important role in the modern economy. IPR is essential for better identification, planning, commercialization, rendering, and thus the preservation of inventions or creativity. Each industry should develop its specialty based on its IPR policies, management style, strategies, and so on.

Based on the above facts, Department of B.Voc logistic management, EMEA College of Arts and Science, decided to conduct **“A Talk on intellectual property right” on 5th march 2024** at B.Voc Hall.

The Seminar started at 02:30 PM, with the opening remarks by Moideen Shafeeque A, HOD, the Department of B.Voc Professional accounting and taxation. Fasla PP, from the Department of B.Voc Logistics management, felicitated the session. N.K. Zaheera Banu, Assistant Professor in the Department of biochemistry at EMEA College of Arts and Science conducted the session and emphasized the topic of **“Intellectual Property Right ”**. and the remarkable session was concluded by Amira Noora. A with a vote of thanks. 52 students of second semester batches of B.Voc logistics management attended the session.

It is concluded that discourse on intellectual property rights emphasizes the crucial role they play in fostering innovation, protecting creators, and promoting economic growth. Nurturing an environment where innovation thrives while respecting the principles of fair use and accessibility ensures that intellectual property rights become a catalyst for societal progress rather than a barrier. Recognizing and respecting intellectual property rights not only preserves the fruits of human ingenuity but also paves the way for a more innovative and equitable future.

Objectives

- To introduce students to the fundamental concepts and categories of intellectual property rights.
- To discuss the significance of IPR in fostering innovation, creativity, and economic growth.
- To explore the legal frameworks governing IPR and their enforcement.
- To highlight the practical implications of IPR in different industries, particularly finance and biochemistry.
- To inspire students to consider the role of IPR in their academic and professional pursuits.

Participants

The session witnessed enthusiastic participation from students and faculty members. The details are as follows:

Number of Students: 52 Students

Accompanying Faculties:

- Dr. Afsheena P, Head of Department & Assistant Professor, Logistics Management
- Safoora Yasmin O, Assistant Professor, Department of Logistics Management
- Moideen Shafeeque, Coordinator, B.Voc Programmes
- Dr. Juwairiyya P P, Assistant Professor, Professional Accounting And Taxation

Programme Schedule

Welcome Address : **Moideen Shafeeque A**
(HOD, Department of Professional accounting and taxation)

Keynote Address : **N.K. Zaheera Banu,**
(Assistant Professor, Department of Bio-Chemistry)

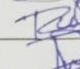

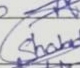

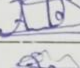

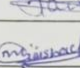

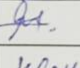

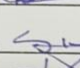

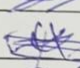

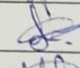

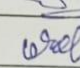

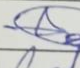

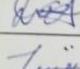

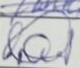

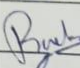

Felicitation : **Dr. Juwairiyya P P**
(Assistant Professor, Department of Professional Accounting And Taxation)

Vote of Thanks : **Amira Noora A**
(Assistant Professor, Department of Logistics management)

EMEA COLLEGE OF ARTS AND SCIENCE, KONDOTTY

DEPARTMENT OF BUSINESS ADMINISTRATION

SESSION ON: AN AWARENESS PROGRAMME ON INTELLECTUAL PROPERTY RIGHTS

|05TH JANUARY 2024|

INTRODUCTION

Intellectual property rights are the rights given to persons over the creations of their minds. They usually give the creator an exclusive right over the use of his/her creation for a certain period of time.

IPR provide certain exclusive rights to the inventors or creators of that property, in order to enable them to reap commercial benefits from their creative efforts or reputation. There are several types of intellectual property protection like patent, copyright, trademark, etc.

Patent is a recognition for an invention, which satisfies the criteria of global novelty, non-obviousness, and industrial application. IPR is prerequisite for better identification, planning, commercialization, rendering, and thereby protection of invention or creativity. Each industry should evolve its own IPR policies, management style, strategies, and so on depending on its area of specialty.

INNOVATE AND PROTECT:
INTELLECTUAL PROPERTY IN BIOTECHNOLOGY

Resource Person:

Dr Somy Soman

(Department of Biotechnology, EMEA College)

2024
MAR. 15 **FRIDAY**
11.00 AM @ Seminar Hall

On 15th March 2024, the Department of Biochemistry organized a seminar titled "Innovate and Protect - Intellectual Property Rights in Biotechnology" at the Seminar Hall. The session aimed to enlighten second-year BSc Biochemistry students about the significance of intellectual property rights (IPR) in the field of biotechnology. Dr. Somy Soman, an esteemed Assistant Professor in the Department of Biotechnology, served as the resource person for the talk.

Dr. Somy Soman commenced the seminar by elucidating the pivotal role of innovation in the biotechnology sector and how intellectual property rights play a crucial role in safeguarding these innovations. She provided a comprehensive overview of various forms of intellectual property, including patents, trademarks, copyrights, and trade secrets, emphasizing their relevance in biotechnological advancements.

Dr. Soman delineated the concept of IPR and its significance in protecting innovations in the realm of biotechnology. She elaborated on the different types of IPR and their applicability in safeguarding inventions, processes, and products.

The session delved into patents as a cornerstone of protecting biotechnological innovations. Dr. Soman elucidated the patenting process, from application to grant, and highlighted the importance of conducting thorough patent searches to ensure the novelty and non-obviousness of inventions.

Dr. Soman addressed the challenges faced in obtaining and enforcing intellectual property rights in biotechnology, including issues related to patentability, infringement, and ethical considerations. She also discussed the opportunities for collaboration and commercialization arising from robust IP protection.

The talk underscored the ethical dimensions associated with intellectual property rights in biotechnology, including the balance between promoting innovation and ensuring access to essential technologies for the betterment of society.

. Dr. Somy Soman's expertise and engaging presentation style ensured that the audience gained a deeper understanding of the complexities surrounding intellectual property rights in biotechnology. The seminar served as a catalyst for fostering a culture of innovation while instilling awareness about the importance of protecting intellectual assets in the biotechnological landscape.

Overall, the seminar was well-received, with attendees expressing gratitude for the valuable insights provided by Dr. Somy Soman. It is anticipated that the knowledge gained from this session will empower students to navigate the intricate terrain of intellectual property rights as they embark on their journey in the field of biotechnology.

Types and Relevance of Intellectual Property Protection

REPORT

The Department of Biotechnology, EMEA college of Arts and Science, Kondoty Organised seminar on 10.07.2023. The seminar was hosted in order to enhance and create awareness on the relevance of intellectual property protection.

Time and Date: 10, 07, 2023 10 AM

Resource person: Zaheera Banu K

Assistant professor

Department of Biochemistry

EMEA arts and science college, kondotty

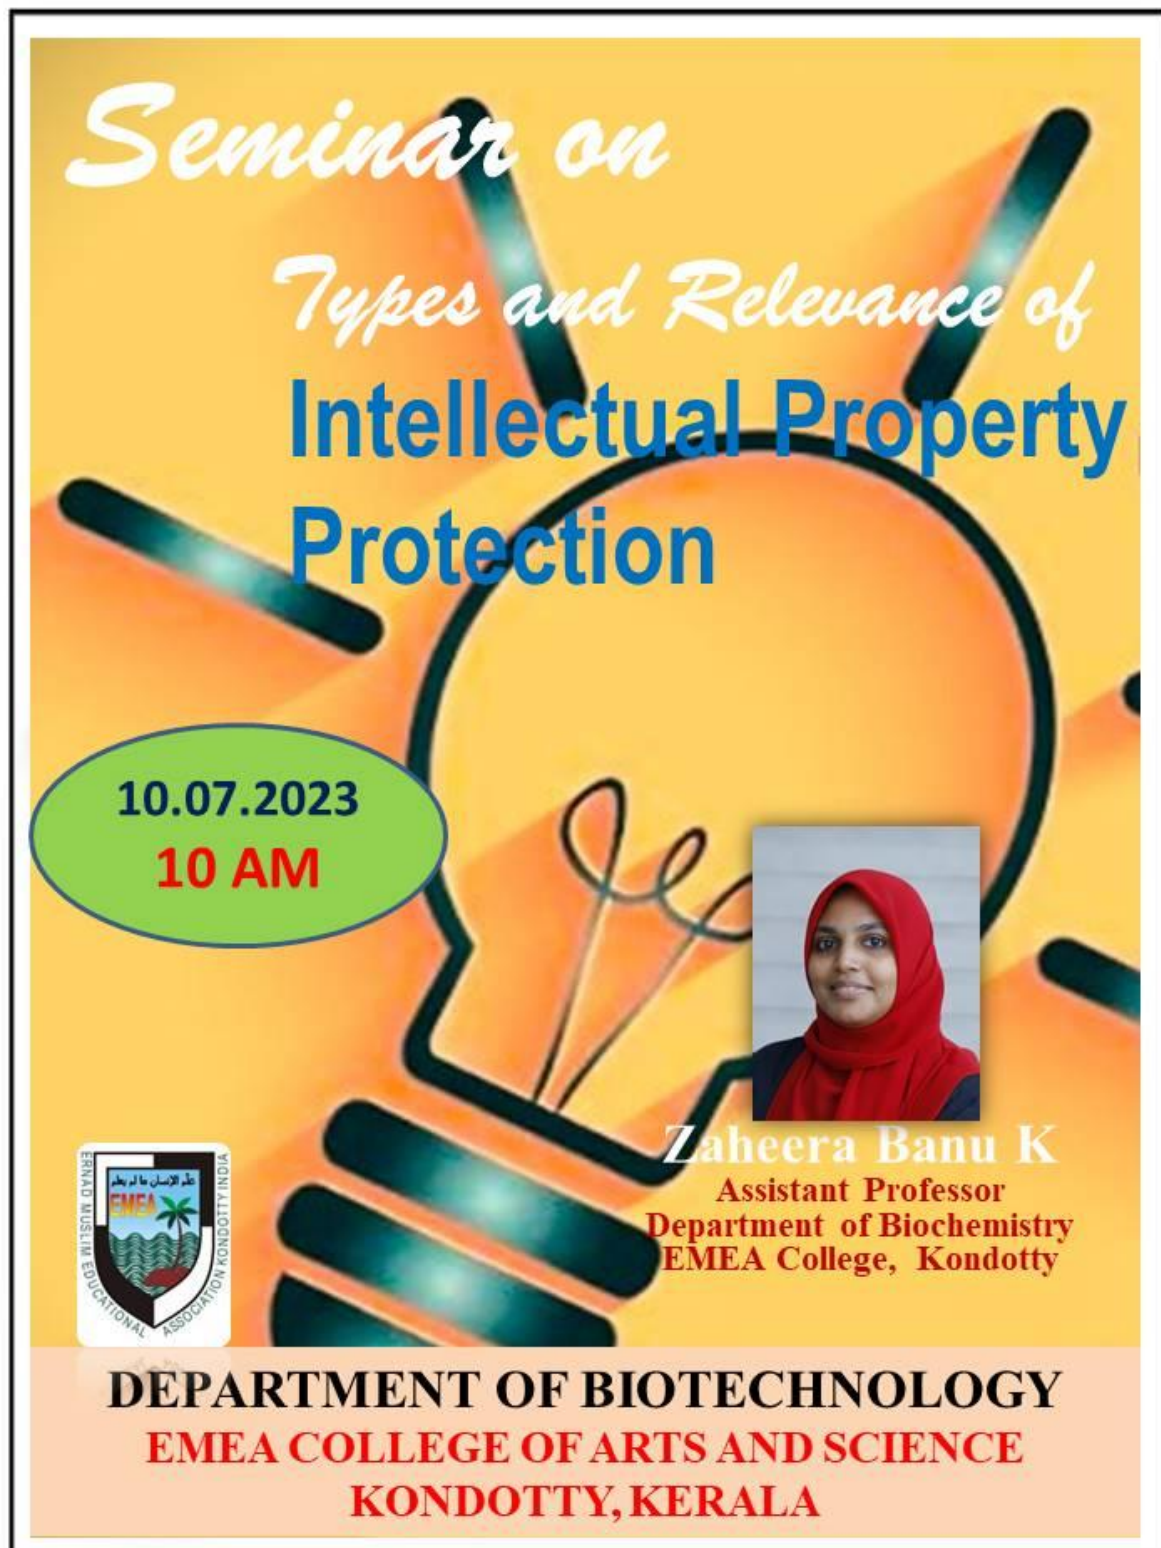

Program:

The seminar was started at 10 AM and Head of Department of Biotechnology, Dr. Mashhoor k introduced the resource person. There were 40 participants.

Description of course content delivered in the seminar

The speaker Zaheera Banu K, Assistant professor, Department of Biochemistry, EMEA College, Kondotty, gave a basic idea on intellectual property protection. It is important for creators and businesses to protect their inventions, Creative works, and brands. There are several types of intellectual property protection, including patents, trademarks, copy rights and trade secrets. Each type of protection has its own rules and requirements, for example, patents protect inventions and grant the inventor exclusive rights to make use, and sell the inventions for a certain period of time. Trademarks protect names, logos and symbols that identify the source of a product or service. Copyrights protect creative works like photos, videos, music and art. Trade secrets protect confidential business information.

25/10/23

REPORT

The department of Maths and Physics, EMEA college organizes a talk on Innovations and Patents on 25/10/23. Dr. Abdul Kareem, assistant professor from PSMO college was resource person. The program was started with the welcome speech by Dr. Ramsiya M, The resource person highlights the importance of innovations and its benefits throughout the class. The resource person had filed four patents and granted two. In the realm of physics, innovations and patents play a crucial role in advancing scientific knowledge, fostering technological developments, and driving economic growth. The class provides an overview of recent innovations and notable patents in various branches of physics, highlighting their significance and potential implications for future research and applications.

Patents are crucial for protecting intellectual property and incentivizing innovation in physics. They provide inventors and companies with exclusive rights to their inventions for a limited period, encouraging investment in research and development. Patents also facilitate collaboration and technology transfer between academia and industry, accelerating the translation of scientific discoveries into practical applications.

The resource person pointed out that the future innovations in physics are expected to focus on quantum information science, advanced materials for energy applications, and fundamental research in particle physics and cosmology. Interdisciplinary collaboration and international cooperation will be key to addressing global challenges such as climate change and healthcare.

Report

The PG and Research Department of Economics as part of Economics Association Inauguration organized an insightful lecture focusing on "Intellectual Property Rights and Patents: Driving Innovation in Economics." The event took place on December 13, 2023, marking a significant initiative in exploring the intersection of economics and innovation. Dr. Y. C. Ibrahim, Principal In charge of Govt. College Kodenchery, graced the occasion as the esteemed resource person, sharing profound insights and expertise on the pivotal role of intellectual property rights in fostering economic innovation. The program commenced with a warm welcome extended by Fathima Rinsha, the Association Secretary, setting an inviting tone for the engaging session. Mr. Mohammed Najeeb, P.M. HoD, presided over the event, lending his guidance and support to the proceedings. Further enriching the event, Professor Rejimon.P.M. HoD, Economics, MD College Pazhanji, Mr. Abdurazaque.P.M, Professor Ibrahim Cholakkal, Dr. Hussain.V, Mr. Mohammed Nisar.T.V and Dr. Rajasekaran .E felicitated the gathering, acknowledging the importance of discussions around intellectual property rights and their impact on economic growth. The lecture proved to be a platform for in-depth discussions, shedding light on the intricate relationship between patents, innovation, and their influence on economic dynamics. Attendees had the opportunity to delve into thought-provoking discussions and gain a deeper understanding of the significance of intellectual property in driving economic progress. The event concluded on a high note, leaving attendees inspired and equipped with newfound knowledge about the crucial role of intellectual property rights in shaping economic landscapes. 172 students from UG, PG and Research were attended the session. Miss Fidha.C (Student Coordinator, Economics Club) delivered the vote of thanks.

The DEPARTMENT OF WEST ASIAN studies organized intellectual property rights (IPR) as of 31-7-2023 at college seminar hall. Intellectual property is a crucial asset for businesses, protecting their innovations, creations, and proprietary information. This report aims to outline the various categories of intellectual property rights owned by the organization, their significance, and steps taken to safeguard them. Intellectual property rights encompass a range of legal protections that grant exclusive rights to individuals or organizations for their inventions, artistic works, trademarks, and confidential information. The inaugural session was welcomed by Mr. Muhammed shafi (Assistant Professor, Department of History West Asian Studies). Dr. Nizar U (Assistant Professor, Department of History West Asian Studies) presided the session. chief guest Mr. Askar Ali interacted with the students on the topic IPR. 82 students were participating the seminar

Intellectual property rights play a vital role in the success and growth of our institutions . These rights provide legal protection against infringement and unfair competition, allowing the organization to maintain its competitive edge in the market. Additionally, IPR enables the organization to monetize its innovations and creative works through licensing, partnerships, or sales.

In conclusion, the department of west Asian studies recognizes the value of intellectual property rights and takes proactive measures to safeguard and leverage its IP assets. The protection of IPR not only strengthens the organization's position in the market but also encourages innovation and creativity within the team.
